MONEY, STOCKS AND BONDS.

Failure of an English Bank Causes a Decline, but Prices Soon React. NEW YORK, July 18 .- Money on call was easy, with all loans made at 2 per cent.,

closing offered at 2 per cent. Prime mercantile paper, 512@7 per cent. Sterling exchange was quiet and easy at \$4.8414 for sixty-day bills and \$4.8612 for

demand. The total sales of stocks to-day were 67,-226 shares, including the following: Atchison, 10,130; Delaware, Lackawanna & Western, 5,8%; Chicago Gas, 2,125; Louisville & Nashville, 4,900; Missouri Pacific.

1.950; St. Paul, 11,310; Union Pacific, 2,480. The failure of the English Bank of the River Platte was announced in London this morning and caused materially lower prices for all kinds of stocks there. Our market felt the effects of this decline and while the opening prices here were above the London equivalents large fractions were knocked off of most of the active shares. The opportunity to sell the market down was not to be neglected by the "bears," however, and they joined with the foreign sellers in pressing the market down. The stocks which have an international market in the main suffered most under the circumstances, but Burlington and Lackawanna led the downard movement, the "bear" pressure be ing specially severe on the latter on account of some supposed trouble in the coal trade. Each of these stocks lost 1 per cent., while the rest of the list declined fractional amounts. The downward movement was checked before the expiration of the first half-hour, however, and, while there was no disposition to buy for the "long" acprices up a little, and later, when the bank statement was issued, showing material gains in cash and surplus reserve, the buying became more pronounced and the upward movement was accelerated. Prices in the last few minutes were brought up to about the level of those of the opening, and the market closed firm, though quiet at the recovery. The final changes are insignificant in all cases, being generally the losses made at the opening of business only.

The trading in railroad bonds went to the smallest proportions again to-day, the two hours of business yielding sales of only \$219,000, while the fluctuations were confined to a correspondingly narrow range, and no decided tendency of prices in either direction was to be detected.

Government bonds were dull and steady. State bonds were neglected. Closing quo-

CONDITION OF THE MARKETS.

Slight Gain in the Price of Wheat-Corn Lower, and Oats Unchanged.

CHICAGO, July 18 .- Wheat was more active to-day and strong most of the session. For the first few minutes it seemed inclined to be weak, then wabbled a little. but finally struck its gait and sold 1ge up. and held firm most of the day. Corn held firm for a short time and then flattened out. September closed 12c lower than on Friday. Pork, lard and ribs had an early advance and a subsequent decline, leaving them about at yesterday's closing quotations. The very general, and in some places, very beavy rains, together with steadier foreign markets and an active demand for export reported from New York and other seaboard cities, gave to the wheat market its stronger tone. The demand for the near months was better than it has ruled of late, more

THE INDIANAPOLIS NATIONAL BANK | care: Minneapolis, 197 care; St. Louis, 190,-The opening price for December was 8612@ 865sc, followed immediately by a drop to 863sc. It stiffened up then and reached 867se in about an hour from the start, with a strong feeling on the advance. It held up well, being supported by an active demand for cash wheat and a decided improvement in July and August. which were both in good request in the pit. A sudden drop in the price of corn and an estimate of 535 cars for Monday weakened wheat somewhat toward the close, and December sold off to 8612c, but the reported sales from New York of sixty boat-loads and the active inquiry for cash wheat here steadied the market, and the close was firm at 865sc for December and 8614c for

> Corn was steady and seemed inclined to firmness early in the session, the "shorts" taking hold very freely. September opened 14c better than it closed last night, selling at 58@531sc. But the cash demand was not so urgent and prices were easier, owing largely to the fear that shipments made now by lake and canal cannot reach the sea-board in time to fill sales for July. Then came the estimate for 525 cars for Monday, and there was a season of free selling, under which September broke to 517sc-a decline of 114c-reacted some, and at the close was about 521sc. July sold at 59c early and then off to 5714c, while August fell from 553sc to 5412c.

Oats ruled lower, mainly on the increasing receipts of new oats, twelve cars having been inspected to-day. July was traded in sparingly, and sold from 343sc to 34c. August sold from 2712c to 271sc, and September from 27c to 2612c; 235 cars are ex-

pected Monday. Pork was nervously strong and higher, but lard and ribs did not share in the strength of pork. The receipts of hogs at the stockyards were only 9,000 head, against an estimate of 13,000 head, and prices at the yards were 10c higher. This started the "shorts" to covering, and September pork sold from \$11.20 to \$11.50, fell to \$11.25, reacted to \$11.35, then broke to \$11.15, but at 12 o'clock was \$11.15@11.20. September lard was steady at 6.55@6.60c, while September ribs sold at 6.70@6.75c, and at 12 o'clock was at 6,70c bid. The leading

INDIANAPOLIS MARKETS. The Trade of the Week Quite Satisfactory for

Midsummer. INDIANAPOLIS, July 18,-In most departments trade has been fully up to expectations for this season of the year. Drygoods men report their sales as having been very satisfactory, a number of the retail men stocking up ahead, expecting a brisk and early fall trade. Grocers are doing considerable in heavy groceries. Sugars are firm at the advance of Thursday. East another advance of 1-16c was made to-day by the refiners, and further advance is looked for here. Soft whites are unusually scarce. The refineries are generally sold ahead. Coffees rule steady. The new crop

is large and begins to arrive freely, and weaker prices are not improbable. The produce markets were active to-day. Receipts of fruits and vegetables are large, but there is no great accumulation of stocks, so good is the demand. New potatoes rule easier, as do cabbage and onions, as this year's crops come on to the market more freely. Lemons are scarce and high. Tomatoes have been in light supply the last day or two, and prices have been strong. Other markets present no new features. GRAIN.

The local market, except on wheat, carried an easier tone than on Friday. Wheat was firm at quotations, which closed 4c higher than on Friday. Track bids on the several cereals ruled as follows:

Frequent Milking. Christian Advocate. American dairymen differ as to how fre-

quently cows should be milked. But a French dairy authority recommends milking a cow three times a day to obtain the best results, adding that four times would even be better, if it did not interfere with the keeping of the cow. The operation should be done with great regularity, he says. Milking too near or too far apart is condemned as being injurious to the cow's health, and it is averred that when the udder is entirely filled with milk no new milk forms in it until it has been emptied, besides the veins become congested and may cause serious trouble. Further, it is absolutely necessary that the milking should always be complete, for the milk only forms in the bag by reason of emptiness which it presents. Besides, the milk which is richest in butter is always that which comes out last from the bag: in fact, the butter giobules have a tendency continally to collect together in the upper strata of the milk-in other words, in that which is called the strippings. The result is, therefore, that in performing incompletely the milking, the most valuable part of the milk

is lost. Baked Tomatoes-Select smooth, round tomatoes, of uniform size, not very juicy. Put them in hot water, remove the skin, cut them in halves, and scoop out all the seeds. Chop and rub to a powder one-third of a cup of boiled bam or tongue, add twothirds of a cup of soft bread-crumbs, one teaspoonful of chopped parsley, or one saltspoonful of thyme, a little pepper, and sufficient melted butter to moisten. Fill the tomatoes with the mixture, place them in a shallow dish, and bake fifteen minutes.
